

# Poetry Writing Prompt

Poetry is a form of writing that uses expressive language, rhythm, and imagery to convey emotions, ideas, or stories. Unlike other types of writing, poetry often relies on techniques like rhyme, meter, and figurative language to create vivid images and evoke feelings in the reader. Through poetry, you can explore your thoughts and experiences creatively.

Write a short poem in the voice of your favorite author or favorite book. Capture the style, themes, and emotions that define their work.

In your poem, consider:

- What specific elements of the author's style or the book's themes do you want to reflect in your poem?
- How does the voice you choose convey the emotions or messages you want to express?
- What imagery or language can you use to create a vivid connection to the author or book?
